

Victoria Gold Corp, “Victoria” or the “Company”, is a junior mining company with an Executive team that has experience in mine building from exploration through to mine operations with a demonstrated ability to do it in an environmentally and socially responsible manner. Construction is underway at Victoria’s **Eagle Gold Project** which is fully funded and will be the next largest gold mine in Yukon. www.vitgoldcorp.com

Victoria is looking to hire the position outlined below for our **Eagle Gold Mine** located in Yukon:

ELECTRICAL & INSTRUMENTATION SUPERVISOR

Under the direction of the Electrical and Instrumentation (E&I) General Foreman, the E&I Supervisor is responsible for organizing all E&I planned and unplanned repairs to the equipment. To supervise the routine, emergency, major electrical and instrumentation component change outs of all systems. To supervise, coordinate, lead and monitor all activities with the highest standard of safety across the mine-site. Responsibilities are noted below which will include but are not limited to:

Main Tasks and Responsibilities:

- Zero environmental non-compliances, accidents and incidents.
- Provide leadership by coaching and encouraging others.
- Coordinate process problems with the planners on a peer level
- Supervise, coordinate and monitor routine maintenance of fixed equipment.
- Coordinate the availability of parts for maintenance projects.
- Identify and balance resource demands for work group; approve time cards.
- Communicate performance expectations to crew members and address any performance issues that can be improved.
- Ensure employees are in compliance with all Company policies/procedures and safety regulations.
- Safety: conduct toolbox meetings; perform shop inspections at the beginning of each shift.
- Organize work assignments with on-shift journeymen.

Qualifications and Experience:

- College Diploma and/or Trades Certification with 6 to 10 years of experience in a related field. Three (3) to 6 years supervisory experience.
- Excellent oral and written communications skills with internal and external contacts.
- Proficiency in MS Office Suite and manufacturing systems.
- Strong background in CMMS
- Attention to detail with excellent organizational skills.
- Ability to work within a team environment with demonstrated leadership qualities.
- Self-directed and self-motivated, demonstrating initiative to do more than is expected or required in the position.
- Commit to safe work practices.
