

Victoria Gold Corp, “Victoria” or the “Company”, is a junior mining company with an Executive team that has experience in mine building from exploration through to mine operations with a demonstrated ability to do it in an environmentally and socially responsible manner. Construction is underway at Victoria’s **Eagle Gold Project** which is fully funded and will be the next largest gold mine in Yukon. www.vitgoldcorp.com

Victoria is looking to hire the position(s) outlined below for our **Eagle Gold Mine** located in Yukon:

Mine Technician/EIT

Under the direction of the Technical Service Superintendent the Mine Technician will work closely with the mine planning and geology teams to develop drill and blast plans, production tracking, and offer surveyor support. The mine technicians will support the engineering in various design and planning activities to ensure service and operating standards are met and aligned to the organization’s long-term goals. The role contributes to continuous business improvement through identifying and developing initiatives that add value to the business. This position will work a rotational basis, two weeks on-site with two weeks of leave (2x2). Responsibilities will include but are not limited to:

Main Tasks and Responsibilities:

- Design and produce drill and blast layouts as per standards. Select and justify proper drill patterns and blast timing with appropriate blasting products supplied.
- Maintain day to day production tracking of main key performance indicators and ensure production requirements are met as per budget in compliance with safety and engineering standards.
- Maintain constant communication with geology grade control team to ensure ore delineation is completed in a timely fashion.
- Engage in improvement efforts to achieve budgets, production, operating and cost-efficiencies.
- Provide and validate inputs to daily, weekly, and monthly reports
- Support surveyors with blasthole staking and pickups and maintain inventory control.

Qualifications and Experience:

- Mine technician or mining technology Diploma from an accredited college or BSc in Mining Engineering or related Engineering with 2+ years’ experience of related mining engineering work.
- Demonstrated proficiency in mine design, software such as MineSight and AutoCad.
- Ability to work within a team environment with demonstrated leadership qualities.
- Demonstrated proficiency in Excel and Access or related database systems would be asset
- Self-directed and self-motivated, demonstrating initiative to do more than is expected or required in the position.
- Strong commitment to safe work practices.

Victoria Gold Corp. offers a competitive compensation and benefits package.
