

**Victoria Gold Corp**, “Victoria” or the “Company”, is a junior mining company with an Executive team that has experience in mine building from exploration through to mine operations with a demonstrated ability to do it in an environmentally and socially responsible manner. Victoria’s **Eagle Gold Project** is in production and poured its first gold Q3, 2019. The Eagle Gold Mine and future mine will be a strong contribution to the Yukon and its citizens for many years to come. [www.vitgoldcorp.com](http://www.vitgoldcorp.com)

Victoria is looking to hire the position(s) outlined below for our **Eagle Gold Mine** located in Yukon:

### **Process Planner**

Under the direction of the General Foreman, the Process Planner will work closely with the operations teams to develop and update short-term and mid-term process operations plans. The planner will execute engineering activities to ensure service and operating standards are met and aligned to the organization’s long-term goals. The role contributes to continuous business improvement through identifying and developing initiatives that add value to the business. This position will work a rotational basis, two weeks on-site with two weeks of leave (2x2). Responsibilities will include but are not limited to:

#### **Main Tasks and Responsibilities:**

- Provide weekly and monthly plans and design layouts to ensure production requirements are met as per budget in compliance with safety and engineering standards.
- Develop and present stacking plans and leaching plans for the in-valley heap leach pad to maximize leach cycle efficiencies.
- Provide input to the Long-Term Planner to develop and maintain a rolling 12-month plan.
- Lead and engage in improvement efforts to achieve budgets, production, operating and cost-efficiencies.
- Provide daily, weekly, and monthly reports.

#### **Qualifications and Experience:**

- BSc in Mining Engineering, Geology or related Engineering with 5+ years’ experience of related mining engineering work.
- Demonstrated proficiency in mine design, software such as MineSight and AutoCad.
- Ability to work within a team environment with demonstrated leadership qualities.
- Self-directed and self-motivated, demonstrating initiative to do more than is expected or required in the position.
- Commit to safe work practices.
- Experience in or understanding of heap leach design will be considered an asset.

Victoria Gold Corp. offers a competitive compensation and benefits package.
